The Department of Mathematics at the University of Kansas invites applications for the Bischoff-Stouffer Distinguished Professor of Mathematics. The position is open to all fields of mathematics. Candidates must demonstrate an outstanding record of research and be acknowledged leaders in their field. Candidates must also be strongly committed to excellence in teaching. We anticipate the appointment to be made at the level of full professor with tenure, though outstanding candidates at the associate professor level are also encouraged to apply. Position is expected to begin August 18, 2015.

For a complete announcement and to apply online, go to https://employment.ku.edu/academic/1840BR or https://employment.ku.edu and click “Search Faculty Jobs”; search by key word [BISCHOFF-STOUFFER]. A complete online application includes the following materials: on-line application, C.V., cover letter, research and teaching statements, and the names and contact information for five references. Initial review of applications begins November 15, 2014 and continues as needed to ensure a large, high quality, and diverse applicant pool. KU is an EO/AAE. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy), age, national origin, disability, genetic information

The University of Kansas is especially interested in hiring faculty members who can contribute to four key campus-wide strategic initiatives: (1) Sustaining the Planet, Powering the World; (2) Promoting Well-Being, Finding Cures; (3) Building Communities, Expanding Opportunities; and (4) Harnessing Information, Multiplying Knowledge. For more information, see http://www.provost.ku.edu/strategic-plan/initiatives.

The University of Kansas is a major public research and training university and is the only Kansas Regents university to hold membership in the prestigious Association of American Universities. KU offers the highest quality undergraduate, graduate, and professional programs, as well as outstanding libraries, museums and technology. The university fosters a multicultural environment in which the dignity and rights of individuals are respected.

The Department of Mathematics has an internationally recognized faculty and a strong graduate program leading to both the M.A. and Ph.D. degrees. A broad range of programs is possible including algebra, analysis, combinatorics, control theory, dynamical systems, algebraic and differential geometry, numerical analysis, probability, statistics, stochastic processes, partial differential equations, set theory, and topology. The department has a long tradition of excellence. The first Ph.D. granted west of the Mississippi was in mathematics at KU in the year 1895. Recent interdisciplinary work has involved projects in biology, computer science, economics, engineering, finance, geology, medicine, and physics.
