Applications are invited for a Teaching Specialist in calculus. Position expected to begin June 1, 2015. Ph.D. in Mathematics or Mathematical Sciences; record of excellence in teaching college-level mathematics; excellent organizational and leadership skills; ability to work well with students, faculty, and administrators; demonstrated oral and written communication skills.

For a complete announcement and to apply online go to https://employment.ku.edu/academic/2504BR or https://employment.ku.edu/academic-jobs and search by keywords “TEACHING SPECIALIST”. A complete online application includes the following materials: online application; C.V.; cover letter; teaching statement; description of relevant teaching, leadership and organizational experience; transcript copy if degree has been obtained in the last five years; and the names and contact information for three references. In addition three recommendation letters addressing the required qualifications should be submitted to MathJobs.org at https://www.mathjobs.org/jobs/jobs/, position #6966. Review of applications will begin February 1, 2015 and continues as needed to ensure a large, high quality, and diverse applicant pool. Equal Opportunity Employer M/F/D/V.

The University of Kansas is a major public research and training university and is the only Kansas Regents university to hold membership in the prestigious Association of American Universities. KU offers the highest quality undergraduate, graduate, and professional programs, as well as outstanding libraries, museums and technology. The university fosters a multicultural environment in which the dignity and rights of individuals are respected.

The Department of Mathematics has an internationally recognized faculty and a strong graduate program leading to both the M.A. and Ph.D. degrees. A broad range of programs is possible including algebra, analysis, combinatorics, control theory, dynamical systems, algebraic and differential geometry, numerical analysis, probability, statistics, stochastic processes, partial differential equations, set theory, and topology. The department has a long tradition of excellence. The first Ph.D. granted west of the Mississippi was in mathematics at KU in the year 1895. Recent interdisciplinary work has involved projects in biology, computer science, economics, engineering, finance, geology, medicine, and physics.
