The Department of Mathematics announces the availability of the position of Postdoctoral Teaching Fellow as part of the College of Liberal Arts and Sciences Course Transformation Initiative in the Natural Sciences and Mathematics and Social and Behavior Sciences. Position is expected to begin July 17, 2015. This appointment is a non-tenure track, limited term appointment for three academic years and will be based in the Mathematics Department. Ph.D. in mathematics or mathematical sciences; interest in pedagogical design and improvement in course teaching; and teaching experience at a university/college setting.

For a complete announcement and to apply online, go to https://employment.ku.edu/academic/3060BR. The following documents should be submitted online: letter of application, CV, three letters of reference, and a teaching statement that summarizes the candidate's teaching experience, innovations in enhancing student learning, and philosophy for improving student engagement and learning in large courses. The three letters of reference should evaluate teaching as well as pedagogical potential and achievement and should be submitted to MathJobs.org at https://www.mathjobs.org/jobs/jobs/, position #7164. Review of applications will begin April 24, 2015 and continue as needed to ensure a large, high quality, and diverse applicant pool. KU is an EO/AAE. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy), age, national origin, disability, genetic information or protected Veteran status.

The University of Kansas is a major public research and training university and is the only Kansas Regents university to hold membership in the prestigious Association of American Universities. KU offers the highest quality undergraduate, graduate, and professional programs, as well as outstanding libraries, museums and technology. The university fosters a multicultural environment in which the dignity and rights of individuals are respected.

The Department of Mathematics has an internationally recognized faculty and a strong graduate program leading to both the M.A. and Ph.D. degrees. A broad range of programs is possible including algebra, analysis, combinatorics, control theory, dynamical systems, algebraic and differential geometry, numerical analysis, probability, statistics, stochastic processes, partial differential equations, set theory, and topology. The department has a long tradition of excellence. The first Ph.D. granted west of the Mississippi was in mathematics at KU in the year 1895. Recent interdisciplinary work has involved projects in biology, computer science, economics, engineering, finance, geology, medicine, and physics.
