Women in Bioengineering at KU, A Success Story
Ms Nikki Johnson, nikki.johnson@ku.edu
Ms Brittany Rover, b703r792@ku.edu
Prof Elizabeth Friis, lfriis@ku.edu

This meeting is a celebration of the accomplishments of two students from who are recipients of the prestigious University of Kansas Madison and Lila Self Graduate Fellowship. The purpose of this fellowship is to identify, recruit, and provide development opportunities for exceptional Ph.D. students in business, economics, engineering, mathematics, biological, biomedical, pharmaceutical, and physical sciences who demonstrate the promise to make significant contributions to their fields of study and society as a whole.

Ms Nikki Johnson is a graduate student at the Department of Mechanical Engineering who works under the supervision of Prof Elizabeth Friis while Ms Rover is a graduate student at the Department of Chemical and Petroleum Engineering and works under the supervision of Prof Cory Berkland.
