115 Gateway Exams. This is a two step process. Students should go to: http://www.math.ku.edu/academics/gateways for the info they need about the 115 gateway. There are 100 problem listed at http://www.math.ku.edu/academics/gateways/samples/115/problems.pdf

The exam consists of 10 problems randomly chosen from the list of 100 problems. Students must answer 8 of the 10 problems correctly with no typos or mistakes. All of the exams have a time limit of 32 minutes.

First step: Pass the gateway exam online (this can be done on any computer, for example, a laptop in your dorm room). The deadline is March 13. Passing this online version is worth 10 points. Students have online access starting the first day of class. Once a 115 student passes the online gateway, they have a choice (first come, first served) or are assigned to one of three weeks to pass the in-lab exam. The three weeks are:

- 115 in-lab exam Mar 23 (Monday) – Mar 27 (Friday)
- 115 in-lab exam Mar 30 (Monday) – Apr 3 (Friday)
- 115 in-lab exam Apr 6 (Monday) – Apr 10 (Friday)

Second step: After passing the online exam, 115 students must pass an in-lab exam by going to 159 Snow (students will need their online ID and KU Photo ID). They can take the in-lab exam from Feb 16th through March 12th. After Mar 12th, they can only take the in-lab exam in their assigned week. Passing the in-lab exam is worth 90 points.

The lab hours are:

- Monday: 9:00 am – 5:00 pm
- Tuesday: 8:00 am – 4:00 pm
- Wednesday: 10:00 am – 6:00 pm
- Thursday: 8:00 am – 4:00 pm
- Friday: 9:00 am – 5:00 pm

Students who do not pass the in-lab gateway exam by the end of their assigned week will only be able to obtain a maximum of 910 points out of 1000 points for the semester.
